

Ohio Orthopaedic Research and Innovation Day

June 2, 2011 ■ Wright State University

This ground-breaking event will bring together engineers and orthopaedic clinicians and researchers to exchange ideas and foster innovation in orthopaedic devices and spur economic development in Ohio.

Medical students, residents and fellows, biomedical engineering students of all levels, students from biomedical sciences and advisors are invited to participate in this open forum to develop strong academic and industry partnerships within the state. Join us as we work together to move the best ideas into the marketplace.

Submission and participation:

Send short abstracts (200 words) to: www.engineering.wright.edu/bie/ooid.shtml

Deadline for submission: March 1, 2011

The final program will be posted on April 15, 2011.

Registration:

Registration information will be announced at a later date.

Registration: \$50

Free for students, residents and fellows.

Boxed lunches provided.
